

BLS CLASSIC 130BS

DISPOSABLE CUP SHAPED FILTERING FACEPIECES

Classic series BLS 130BS cup-shaped filtering facepieces are classified as FFP3 R D and feature adjustable elastic straps and a full gasket.

DESCRIPTION

BLS 130BS filtering facepiece is classified as FFP3 R D: it has therefore passed the Dolomite dust clogging test, synonymous with high efficiency and longer facepiece life. It can also be reused for more than one work shift. The facepiece features a soft seal around its entire perimeter and adjustable elastic straps.

NOSE CLIP

The nose clip is located internally between the layers of the filtering material and it is not in direct contact with the face.

EXHALATION VALVE

The exhalation valve reduces breathing resistance and humidity inside the filter facepiece, increasing user acceptability.

DISPOSABLE CUP SHAPED FILTERING FACEPIECES

MATERIALS

NOSE CLIP	Reinforced Polypropylene (PP)
VALVE	Polypropylene (PP); Polyisoprene
GASKET	Foamed polymer
FILTERING MATERIAL	Polypropylene (PP)
ELASTICS	Synthetic polyisoprene
ELASTIC HOOKS	Acrylonitrile Butadiene Styrene (ABS)

TECHNICAL DATA

PRODUCT	CODE	CLASS of PROTECTION	NPF	VALVE	ELASTICS
BLS 130BS	8101084	FFP3 R D	50*TLV	✓	Adjustable

(R) Reusable (TLV) Threshold Limit Value (NPF) Nominal Protection Factor
(D) The product passed Dolomite test, simulates a heightened level of solid particles

TRANSPORT

PRODUCT	CODE	WEIGHT (g)	Q.TY/BOX	Q.TY/CARTON	CARTON WEIGHT (Kg)	Q.TY/PALLET
BLS 130BS	8101084	20	5	60	2,40	1.440

STORAGE

SHELF-LIFE	10 years
TEMPERATURE	+5°C / +40°C
RELATIVE HUMIDITY	<60%

CERTIFICATION

BLS filtering facepieces are:

- Certified according to European Regulation 2016/425 (Personal Protective Equipments)
- Certified as PPE of III category, in presumption of conformity to harmonized standard EN 149:2001+A1:2009
- Certified and controlled according to Annex D by Italcert S.r.l. (Notified Body n°0426)
- CE marked

BLS management system is ISO 9001 certified.

FIELDS OF APPLICATION

BLS 130BS filtering facepieces are suitable for protection against dust, fibres and fumes from toxic particulate matter in concentrations up to 50 x TLV (FPN). Some examples: welding fumes, exposure to metal dust, silica, asbestos fibres, hardwood, and any toxic substance in solid form. The facepiece is also suitable for reducing the risk of infection in case of exposure to viruses and bacteria. The presence of a full seal and adjustable elastic straps ensures the best fit to the face and therefore maximum protection.

IMPORTANT

BLS declines any responsibility, direct or indirect, from any misuse of both devices and instructions. User is responsible for the determination of product compliance with the intended use.
